Overview

It is a simple system designed for the university Students. It allows:

- Students to report problems or issues they face
- Faculty to provide feedback or solutions
- Admins to manage and track complaints efficiently

Key Highlights

- Easy complaint submission
- Email notifications for updates
- Admin dashboard to monitor issues
- Track complaint progress in real-time
- Faculty response system
- Secure login for everyone

System Features

1. Login & Registration

- Students and admins register securely
- OTP verification ensures email is correct
- Passwords are safe

2. Complaint Submission

- Submit complaints with category and location
- View your previous complaints
- Track complaint status: Pending → Forwarded → Replied or Resolved

3. Notifications

- Emails sent for:
  - Registration confirmation
  - Complaint submission
  - Complaint forwarding
  - Complaint replies

4. Faculty Feedback

- Faculty receives complaint via email
- They can submit their response
- Admin can view their reply

5. Admin Dashboard

- View all complaints
- Forward complaints to faculty
- Mark complaints as resolved
- View registered students
- Color-coded status indicators

6. Real-Time Tracking

- Total complaints

- Pending complaints
- Under review complaints
- Resolved cases
- Registered students

User Roles

🎓 Student

Can:

- Register with email
- Submit complaints
- Track complaint status
- Receive email updates

Pages:

- Welcome.html
- Signup.html
- OtpVerify.html
- UserLogin.html
- Problems.html

👩‍🏫 Faculty

Can:

- Receive complaints via email
- Open link to provide response
- Submit feedback
- Track complaint details

Page:

- reply.html

Srudent Guied

1. **Register**: Fill in name, registration number, email, and password. Confirm via OTP.
2. **Submit Complaint**: Select category, location, and describe issue. Receive complaint ID.

3. **Track Status**: View complaint status and admin/faculty response.

For Faculty
